COMMITTED TO RESULTS

We let our experience guide us, and our satisfied clients' results speak for themselves.

Charlie Shami, **Vice President, AGR Fabricators**

"We have been working with LabDS for over 20 years. They are a great partner for us. The entire staff is very professional, knowledgeable, and great to deal with. I highly recommend LabDS for all your laboratory needs."

BMC - Leading supplier of lab benches and fume hood, Muskegon, MI

"BMC has been working with LabDS since 1999. They have an exceptional team and are a pleasure to work with. I highly recommend them."

Julie Edwards, Operations Manager, Old Colony Cabinets, Inc

"We have always had a positive experience working with Laboratory Designs. It should speak volumes that a company in Massachusetts is willing to work with a company that is out of state rather than locally. Lead time and pricing are competitive. Their quality is top-notch. We would highly recommend."

Josh Green, Senior Engineer, Wacker Chemie Inc

I have had multiple compliments on the new lab Laboratory Design & Supply helped us construct. Your CAD services helped us greatly with the lab layout phase. The willingness of your installation crew to work according to our safety and quality guidelines also contributed to a successful project. In addition, I appreciate your willingness to complete punch list items in an expeditious manner.
